

Progressive Diagnostics Announces It is Now In-network with Anthem Blue Cross and Blue Shield.

— *Agreement Expands Access to Affordable Care with One of New England's Largest
Clinical Laboratories* —

Trumbull, CT – November 4, 2021 – [Progressive Diagnostics](#) and Anthem Health Plans, Inc. doing business as Anthem Blue Cross and Blue Shield, Anthem Health Plans of Maine, Inc. doing business as Anthem Blue Cross and Blue Shield, Anthem Health Plans of New Hampshire, Inc. doing business as Anthem Blue Cross and Blue Shield and Matthew Thornton Health Plan, Inc. (“Anthem”) have reached an agreement whereby Progressive Diagnostics is now a participating provider in Anthem’s clinical laboratory network. One of the largest clinical laboratories in New England, Progressive Diagnostics performs molecular and high-complexity tests for specialties such as pain management, psychiatry, mental health, addiction, and primary care, as well as urgent care and hospital settings.

“We are delighted to be part of Anthem Blue Cross and Blue Shield’s credentialed provider network here in New England for both Commercial and Medicare members. This partnership will help thousands of patient members receive high quality affordable testing services, especially for those with behavioral health and addiction diagnoses. The Progressive Group has a strong commitment and proven ability to serve the population in need of these services and looks forward to developing a collaborative long-term partnership with Anthem,” said Curt Kuliga, CEO & Founder, The Progressive Group.

Headquartered in Trumbull, Progressive Diagnostics performs more than 1.5 million tests per year, including COVID-19 PCR and anti-body tests. Progressive Diagnostics has locations in Bridgeport, Shelton, Norwalk, Trumbull, and Wilton, with several more full-service patient service centers opening throughout Connecticut in the coming months.

Progressive Diagnostics is in-network with other commercial healthcare insurance providers, as well as Connecticut Medicaid Husky and Medicare plans.

About Progressive Diagnostics

Founded in 2014, Progressive Diagnostics is focused on transforming the traditional transaction-based laboratory experience into a new category of innovative real-time interactive diagnostics and medical management systems. It is part of the Progressive Group, which also includes Progressive Institute and Progressive Health Dynamics. The Progressive Group foster a *Culture of Contribution*, whereby they contribute a portion of their proceeds to Connecticut-based mental health and addiction treatment programs.
